

Tariffs for low voltage connection 0-20 kW

Tariffs for Household Customers:

T1 = 1000 ALL

T2 = according to the distance table (the fixed value of the tariff within 200m is 2000 ALL; the value added for every 100m is 1000 ALL.)

T3 = 2,000 ALL/kW (to the demanded capacity)

T4 = Service tariff for realizing the new connection and the metering.

Tariffs for Non-Household Customers:

T1 = 5000 ALL

T2 = according to the distance table (the fixed value of the tariff within 200m is 2000 ALL; the value added for every 100m is 1000 ALL.)

T3 = 2.500 ALL/kW (to the demanded capacity)

T4 = Service tariff for realizing the new connection and the metering.

Tariffs for additional capacity, connection modification or transferring for Household customers connected in low voltage:

T1 = 0 ALL

T2 = according to the distance table

T3 = 2000 ALL/kW (to the demanded capacity)

T4 = Service tariff for realizing the new connection and the metering.

Tariffs for additional capacity, connection modification or transferring for Non-Household customers connected in low voltage:

T1 = 0 ALL

T2 = according to the distance table

T3 = 2500 ALL/kW (to the demanded capacity)

T4 = Service tariff for realizing the new connection and the metering.
